ABOUT

I began my career in diverse industries such as food service, shipping, construction, and manufacturing, but I desired a more fulfilling path that aligned with my passion for problem-solving.

In January 2023, I enrolled in the Full-Stack Web Development program at Nashville Software School, where I refined my skills in both front-end and back-end languages, enhanced teamwork and communication abilities, and further fueled my passion for web development.

PROJECTS

QUEST KEEPER

Quest Keeper is a comprehensive app for managing video game progress. It allows users to create, view, update, and delete posts about their favorite games, including platform, title, & notes. Users can also view with posts from other users.

(Tech Used: JavaScript, React, Tailwind CSS)

(View Code) (Deployed Site)

STUDY OTHER LANGUAGES (S.O.L.)

S.O.L. is a language learning program for mentors teaching foreign languages to students. Administrative users can create & delete flashcards, while pupils can view the front/back of each flashcard and filter by category to master their target language.

(Tech Used: JavaScript, React, CSS, & HTML)

(View Code)

VACATION STATION

Allows users to post recent vacations they've experienced so all users may see and be able to make informed decisions for their upcoming travel plans. Made with full CRUD functionality.

(Tech Used: JavaScript & React, Python & Django)

(View Client Code)   (View Server Code)

SKILLS

- JavaScript
- React
- Python
- DJango
- HTML
- CSS
- SQLite
- Git/Github
- Tailwind
- Spanish: Writing & Speaking fluency

EDUCATION

NASHVILLE SOFTWARE SCHOOL

NASHVILLE STATE COMMUNITY COLLEGE

TECHNICAL EXPERIENCE

SOFTWARE DEVELOPER

Nashville Software School

January 2023 - June 2023

- Full-time, six month software development bootcamp focusing on JavaScript/React & Python/Django development fundamentals and problem solving
- Daily hands on application of OOP fundamentals through group and individual projects
- Created single & multi page applications in JavaScript & React
- Project management/tracking with GitHub project boards and issue tracking source code/version control with Git/GitHub
- Solution Design: white-boarding & wireframes
- Created RESTful API's with Django REST framework
- Retrieved and stored database information with SQLite

PROFFESIONAL EXPERIENCE

OPERATOR & TECHNICIAN

Dal-Tile Corporation

September 2021 - December 2022

OPERATOR

- Set new production record among all shifts within four months of start date
- Checked finished products for correct labeling, presentation, and quantities
- Maintained machinery as needed for optimal production rate

TECHNICIAN

- Operated front-end loader to keep raw material ready for production
- Tested slip & finished powder hourly to ensure Q.C. Standard satisfaction
- Shut down Ball-Mill & Spray-Dryer for cleaning, mechanical-assessment, and routine maintenance

ESTIMATOR

Irwin Painting Company

November 2020 - August 2021

- Networked with General Contractors to help finalize bidding prices via email, phone, and in-person meetings
- Analyzed architectural plans using estimating software to provide accurate accounts of square footages and item quantities for paint material, equipment, & labor costs
- Reviewed all takeoff/quantities with company president to have accurate pricing and prevent miscommunications
- Successful Contracts (ranging from $80,000 to $218,000) include: NSCC, MTSU, and Vanderbilt University
